Welcome to the 11th annual Twin Cities Film Fest and our first ever ‘hybrid’ festival. We can all attest to how this year is unlike any others we have collectively lived through. We know how much this organization and our work means to the community and our film artists. At no point did we think that we were going to cancel this year’s festival and festivities. We took on this unprecedented task head on and have innovated. We have built what we believe to be the next evolution of how the festival will thrive into the future. TCFF is hitting the ‘fast forward’ button and bringing the art of film to our consumers on-demand. In a year where nothing came easy, where everything was in disarray, and where every corner was a dead-end, our festival partners and community members were there for us. With tremendous support, TCFF was able to build a streaming platform to host not only Minnesota Connected filmmaker films for year-around programming, but also our lineup of over 70 film premieres for the 2020 festival. With our partners help, we were able to secure and build out a new office space that will not only host festival events this year, but will serve as the new festival headquarters moving forward with a screening room, production pods and a space for community events and conversations. In a time where safety is of utmost concern, TCFF Production Services implemented COVID safety guidelines and has continued to work with local businesses to tell their stories through visual media.

To our Board of Directors, Advisory Board members, amazing Staff and Volunteers, Thank You. Thank you to all of my sponsors, as your support of the festival and your belief in our mission and vision, makes everything possible. To all of our members, a heartfelt thank you. To our Donor base, thank you. Your gracious contributions provide the sustainability our organization needs to make every single day possible. To the filmmakers, thank you. You tell human stories and it’s our obligation and pleasure to share it with the world. To all of those that participate in the festival as audience members, thank you. Most importantly, thank you to my family. Without your support and guidance, I wouldn’t be where I am today.

What can you expect from the 2020 TCFF? Everything you are accustomed to! With a mix of socially distanced in-person screenings and online screenings, our programming team has yet again set the bar by curating a stellar program. From heartfelt Indies to hard hitting dramas, from awards contentiong studio films to socially conscious documentaries, from mind altering genre films to partnered screening, we have something for everyone! We want the audiences to laugh, cry, cringe and most of all immerse themselves in the cinematic experience whether it be in person or online from the safety and comfort of their homes.

This is the most innovative, accessible and affordable festival we’ve ever had the pleasure to put on. So, all there’s left to say is..

Lights, Camera, Films!
